"THE BEATEN GENERATION"

Visit ["THE BEATEN GENERATION"](#) on MotoLyrics.com

I've got a reputation
I'm the man of steel with international appeal
And I'm on the way
A megaton of power
I'm a sight to see and as erect as can be
Turn me on today

Your heart is spinning out of control
You can't tell one road from another, but you will
recover
Don't forget you're part of the whole
It took a year or two to get it, still you won't regret it

I've got no reservations
When I'm up to speed and if you're ever in need
Put me on the floor
I'm a vinyl album
When the needle comes down, get the hell out of town
'Cause I'm in stereo

Rock and roll is doing you proud
To the beaten generation, vibes across the nation
Feel the groove and turn it up loud
Let's dance on until the morning, then you hear the
warning

Happiness is bringing you down
Step in time with all the masses, here's your
sunglasses
Try to bring your government down
When it comes down to tomorrow, deal with all the
sorrow

I'm an hallucination
When you're coming down, get the hell out of town
Take a holiday
I'm a supersonic neutron
I'm on gasoline, solar power and steam
Shoot me into space
