Woke up this morning and felt not too cool  
'Cause every time I tried to make my mouth move  
The pain I'm having is so discomforting  
Please make this suffering go away  
I told my mom what I was feeling  
And how long I've been dealing with it  
Knew it was coming, but didn't know how soon  
She said I've reached another adolescent monsoon  
OOoo Ahh... the pain is tremendous  
Why can't I take it like a man  
OOoo Ahh... the pain is horrendous  
Why don't you lend a helpin' hand  
He was a well-educated man, had his degree in  
medicine  
I noticed his hairy hands... he was a very, very hairy  
man
