I'm tired from exploring you

I'm sorry, you've had some scary days

I'm lucky, they had me on a leash,

Exposing, sometimes you frighten me

And it's too bad

You're so sad

I wish you could have had what i had

And it's so sad

it's too bad

Maybe i can make you feel better

Oh maybe i'm supposed to make you feel better.

I'm loathing

most of your history

Hesitation,

But then you siphon me.

Your potential, well I'll indulge in that

Violent timing explains the aftermath

And it's too bad

You're so sad

I wish you could have had what i had

And it's so sad

it's too bad

Maybe i can make you feel better

I want to comfort you

I want to comfort you

I want to comfort you

I want to comfort you

Unlike you, I had it easy

You're dark blue

Staned from previous days

And it's too bad

You're so sad

I wish you could have had what i had

And it's so sad

it's too bad

Maybe i can make you feel better

Oh maybe i'm supposed to make you feel better.

I'm sorry.

I'm sorry
