Don't wait too long or she'll be gone fast as a blink

Get on the ball if you love your lover

No gesture too small

Tear down the walls if you love her

Just give it your all

Ooo yeah, you've got to tell her that she's the only one

Show her, make sure she'll never feel abandoned

Get on the ball if you love your lover

No gesture too small

Tear down the walls if you love her

Just give it your all

Don't wait too long or she'll be gone fast as a blink

Don't wait too long or she'll be gone fast as a blink

Ooo yeah, you've got to tell her that she's the only one

Show her, make sure she'll never feel abandoned

There won't be time to even think

So use your mind and instinct

She'll drive you crazy

So don't be so damn lazy
