I've got no time for fairy stories

I'm not a little girl

So you can leave me all alone

And turn of the lights as well

If you were frightened then listen

But I don't think you'd like it

Such a nice kid

Nobody's lookin' now

I throw my toys around

Somebody's being very bad

I wonder who it could be

Somebody's gon' to get in trouble

I know it isn't me

I'm just a little angel

But cha don't know what I've done

When your backs turned

Nobody's lookin' now

I throw my toys around

[with Elvis Costello] :

Pick up those building blocks

Chop off the baby's locks

Swing dolly by her hair  
Put down that teddy bear  
Slam dunk a happy clown  
I throw my toys around  
I've got no time for bedtime stories  
I'm not a little child  
Everything makes me furious  
And everything makes me wild  
If you are frightened  
Then whistle and i'll come running to you  
As you boo hoo  
Nobody's lookin' now  
I throw my toys around  
Nobody's lookin' now  
I throw my toys around  
[Elvis] :  
I throw my toys around  
[Gwen] :  
I throw my toys around  
[Repeated 10 times]
