Life goes on, believe it or not

Your life's not up so don't sit there and rot

Don't dwell on the bad thoughts and things you ain't got

So move on, move on, move on

Life must go on

Adam and Eve, so it is said,

Listened not to God and ate the apple instead

They found they were naked to the forest they fled

And moved on, moved on, moved on

Because of them life moved on

Chorus:

We must appreciate the people who are brave enough to

Sacrifice their lives to create inventions for me and you

Although at first it's hard to see the point that they are making

We must see they moved us on by changing and improving all our, all our lives

Ohhhahh!!

Benjamin Franklin attempted a flight

Flew his homemade contraption on a dark stormy night

When they thought it was crazy then the lightning did

strike

Then the lights of the world turned on

We moved on moved on moved on

Columbus had a theory of the world being round

Tradition had it flat so he was with doubt

He sailed to find out but no edge was found

Because of him we sailed on

We moved on moved on moved on

Chorus:

We must appreciate the people who are brave enough  
to

Sacrifice their lives to create inventions for me and you

Although it's hard at first to see the point that they are  
making

We must see they've moved us on by changing and  
improving all our, all our lives

Don't be afraid

Let your feelings show

Wear your heart on your sleeve

And let yourself grow (yeah)

Don't be afraid

Let your feelings show ohhh

Wear your heart on your sleeve your heart on your  
sleeve

And let yourself grow yeah

Oooooohhh...yeah yeah yeah huuuhohhhh

Don't be afraid

Let your feelings show yeaaahh

Laaa and let yourself grow yeahhh

Don't be afraid

Don't be afraid

[part of the chorus from the fast version:

Time will soon change and so will your thoughts so  
move on, move on, move on

Life's not that long
