Please Miss Fried

He don't mean to be mean

He just needs to leave

He hopes he does bit

Cause any inconvenience

Why can't you see?

He says, " please don't be sad for me"

Oh Miss Fried

Please believe you're his queen

He must fight for his dreams

Lovely Miss Fried

He will too miss you

He just needs to be free

He says, "If I should ever cause you to

bleed...don't pretend to be naive"

Don't take him wrong, let him be

Sometimes he feels like he ought to be alone

He says, "Please don't be sad for me"
