J. McMahon, E. Stefani, J. Spence, G. Stefani)

I drive in my dad's new car
This time I've gone too far
I did not know the price I'd pay
I smashed up his last years pay

I'm rappin' with my so-called friends
Awaitin' for my commands
The lies are told, they seem to know
So telling me would be wrongly so

Chorus:

A different time, a different place, a different look, a
different face
(I'm showin' off)
>??
(I'm showin' off)

It's all over the deed is done
And that's the price of my own fun
Took it for granted the way I thought
And now my confidence just can't be bought

Chorus:

A different time, a different place, a different look, a
different face
(I'm showin' off)
>??
(I'm showin' off)

That's the way it looks when you show off
That's the way it looks when you show off
That's the way it looks when you show off
That's the way it looks when you show off
That's the way it looks when you show off
