I sign in my name

I guess I have to wait a while

I'm gonna play this game

Call me up if you know how to dial

You always had my number

You need to be my lover

Humiliation

I'm in the waiting room

[Chorus:]

If we both want the love

And I wait long enough

Then the ground that we're on might be coming

All I can do is wait for you

All I can do is wait for you

I'm all alone in the waiting room

I'm all alone in the waiting room

When you buried in solitude

It can get real thick

Desire is your only food

It can get you sick

You know you're so fine

I'm over here standing in this line

Just waiting in the waiting room

[Repeat Chorus]

While I'm in the waiting room

A thousand thoughts I think of you

Whatever you did, it's got me glued

It's icky, it's sticky, ooo

You're the one I'm dreaming of

Why does this feel like wasted time?

What a price is traveling love?

You and me trapped between these lights

Ooo, you're so mine

[Repeat Chorus]

All I can do is wait for you (I'm just waiting for you)

All I can do is wait for you (You know you want me)

All I can do is wait for you (You always had my number)

All I can do is wait for you (You know you need to be my  
lover)

All I can do is wait for you

All I can do is wait for you

Wait for you. Wait for... Why are you making me wait?

I'm all alone in the waiting room [Repeated 5 times]

Will you call me when it's my turn
