Born into a sick world
Survival uncertain
Some don't make it to see tomorrow
Dead before life
Can't live to see
Can't feel love or sorrow

Died a day into this world
The air around takes you down
Survival can't be done
Died before you even saw one

Hopeful and happy
Deny the future
They don't pick to leave so soon
Sudden and a shock
Don't see it coming
You aren't going to live a real life

You died a day into this world
The air around takes you down
Survival can't be done
Died before you even saw one

In some fucked up way you're lucky
You won't have to bear the pain of life
In some fucked up way you're lucky
Taken down before society killed you

You died a day into this world
The air around takes you down
Survival can't be done
Died before you even saw one
One
One
