I remember when you walked
into my secret life
I remember holding hands
for the very first time
I remember when you kissed me
and I was so scared
but somehow I knew that you
would always be there
and I remember everything

I don't know what life
will bring tomorrow
but I want you there
next to me
and I don't know where I
will be tomorrow
but I'll remember you and me
you and me

I remember dancing
in your arms all night
I was staring into your eyes
in a circle of light
I remember your laugh
and how we cried sometimes
I remember everything

I don't know what life
will bring tomorrow
but I want you there
next to me
and I don't know where I
will be tomorrow
but I'll remember you and me
you and me
The leaves will change
the world is rearranged
why do we all have to
grow up so fast?
people come and go
walk in and out
of your life

but the ones that you
really treasure
will be with you
for all time

and I know all the odds
are stacked against us
but I
know the rules don't apply
to love
I do know that you came
to rescue me from my
secret life
ohh

I don't know what life
will bring tomorrow
but I want you there
next to me
ohh
and I don't know where I
will be tomorrow
but I'll remember you and me
ohhh
I'll remember you and me
you and me
