### "New Year's Resolution"

Visit "[New Year's Resolution](#)" on [MotoLyrics.com](http://MotoLyrics.com)

It's a dark one outside  
So you'd better bring a flashlight when you come  
You'd better bring all the things that you own 'cause  
we might never come back

You see it's dark in my mind  
And you are better than a flashlight in the rain  
And it's better that you don't ask me to explain why  
we might never come back

You see my new year's resolution is to  
Get away from all of this dark and that means getting  
out of here  
You see I'm tired of drinking that poison and I'm  
Sick of all the god damn rain so you'd better stay clear  
'Cause I got a big old buffalo tattooed onto my heart

It's a dark one outside  
So you'd better bring a flashlight and more  
You'd better bring all the things that you can grab from  
the store  
'Cause we might never come back

You see it's dark in my mind  
And this is better than a flashlight in the rain  
And it's better that they don't ask us to explain how  
we might never come back

You see my new year's resolution is to  
Get away from all of this dark and that means getting  
out of here  
You see I'm tired of drinking that poison and I'm  
Sick of all the god damn rain so you'd better stay clear  
'Cause I got a big old buffalo tattooed onto my heart

And I got four points on the compass that say I can go  
where I want  
And I got two mean horses that say I can be who I want  
And I got a big old buffalo tattooed onto my heart
