"Blue Sister"

Visit "[Blue Sister](#)" on MotoLyrics.com

Blue sister please don't cry
Blue sister dry your eyes
Your lover's been taken away by some friends
That he met in the night

That scene's not a new one to you
You've seen it a million times too
The players, their lines are old too
Blue sister know that I care about you

Blues sister are no cure
For you sister that's for sure
Your eyes have been shouldering pain
And the tears show emotion so pure

That scene's not a new one to you
You've seen it a million times too
The players, their lines are old too
Blue sister know that I care about you

Blue sister you'll survive
Blue sister's inner drive is
Your man don't drive him away
If you want him here staying alive

That scene's not a new one to you
You've seen it a million times too
The players, their lines are old too
Blue sister know that I care about you
