"Burning Up Time"

The Brighton train it goes real soon

My Brighton Belle is in her room

It's burning up time

Burning up time

I wanna burn up while I'm having good times

Don't wanna burn up with other people's bad times

Like a meteor

Like to meet yer

The weekend's here the Finchley Boys

Are gonna make a lot of noise

It's burning up time

You either love or you despise

There's just no time for compromise

The days have gotta move real fast

We know that nothing's gonna last
