Death and night and blood, death and night and blood
(Death and nights of blood, death and nights of blood)

When I saw that Sparta in his eyes, young death is
good
(Death and nights of blood, death and nights of blood)
And we decided that to die there was no greater love
(Death and nights of blood, death and nights of blood)

(Death and nights of blood, death and nights of blood)
Hey, little baby, don't you lean down low
Your brains exposed and it's starting to show
Your rotten thoughts, yuck
(Death and nights of blood, death and nights of blood)

I was attracted to a night torchlight parade and there I
came
(Death and nights of blood, death and nights of blood)
Home is a black leather jacket, fitting sweetly to my
brain
(Death and nights of blood, death and nights of blood)

(Death and nights of blood, death and nights of blood)
Hey, little baby, don't you lean down low
Your brains exposed and it's starting to show
Your rotten thoughts, yuck
(Death and nights of blood, death and nights of blood)

I will force my body to be my weapon and my statement
so
(Death and nights of blood, death and nights of blood)

(Death and nights of blood, death and nights of blood)
Hey, little baby, don't you lean down low
Your brains exposed and it's starting to show
Your rotten thoughts, yuck
(Death and nights of blood, death and nights of blood)
