"European Female"

I knew she was a feline, she moved with ease and
grace
Her green eyes held mystery, no emotion on her face
The European female she's here

She speaks, her lips are kissing the air around her face
I don't always understand her, I love her air and grace
The European female she's here

The European female's here
We'll be together for a thousand years
And do you really fear that you might fall, fall, fall, fall,
fall, fall

I saw her in the Strasse and in the Rue as well
Pursued her in the high street, she had me in her spell
The European female she's here

The European female's here
We'll be together for a thousand years
And do you really fear that you might fall, fall, fall, fall,
fall, fall (Against the European)
The European female's here
We'll be together for a thousand years
And do you really fear that you might fall, fall, fall, fall,
fall, fall
The European female's here
We'll be together for a thousand years
And do you really fear that you might fall, fall, fall, fall,
fall, fall
