When the lights go down
When there are no more roads
When there is no sound
When the music stops
When you need somebody but
Nobody is there
In the dark you're hiding
Tell me is this fair?
Walk alone and lonely
Nothing to expect
And a good word only
Makes you to forget
When you need somebody
But nobody is there
In the Dark you're hiding
Tell me is this fair?
Save me
And kiss me
Save me baby
Release me
Living in this prison
Where there's no space
Give me just one reason
To escape this place
Look into my eyes
There are no more dreams
Break this frozen ice
Warm me up oh please
When you need somebody
But nobody is there

In the dark you're hiding
Tell me is this fair?
Save me
And kiss me
Save me baby
Release me

When the lights go down
When there are no more roads
When there is no sound

When the music stops
Walk alone and lonely
Nothing to expect
And a good word only
Makes you to forget
Living in this prison
Where there's no space
Give me just one reason
To escape this place
Look into my eyes
There are no more dreams
Break this frozen ice
Warm me up oh please
When you need somebody
But nobody is there
In the dark you're hiding
Tell me is this fair?
Save me
And kiss me
Save me baby
Release me
