Verse 1:

Too many times have I been shot down
From my fears over you
I've gotta let go of the comfy ground
And fly my way to you

Pre-Chorus:

Here we go for the very first time
Your hands behind my neck as I, let out a sigh

Chorus:

I'm feelin lucky, to be
Dancin next to you

Verse 2:

I've been saying this same old line
Over and over again
---To myself in the mirrors eyes
Can we be more than friends

Pre-Chorus:

Here we go for the very first time
As we la-nd our first kiss, and you let out a sigh
