Verse:

I'm so far into my own ends  
And when you're gone it starts over again  
But when I hear your voice over the phone  
I don't feel so alone

Your smile sets me on fire  
Your eyes deepen my desire  
Trippin over your swagger your style  
So chill but so alive

Chorus:

This is what I've been  
Waitin for, a love that can  
Bring to life all my butterflies and get me so high  
I---'ll, Fi---nd, all the things that make you smile  
And put them in a box  
This is what I've been waiting for,

Bridge:

This is what I've been  
Waitin for, waitin, for  
The science of imagination  
Proves that there is love

Verse 2:

Goodbye to my old self  
You've been, taken over by somebody else  
And I, don't mind when she invade  
---She's so sweet to taste

Dum diddly dee  
You've been good to me  
When I'm witcha I feel, so much,---dignity  
---Your touch is like an ocean floor  
So deep I forget to breathe
