Rape is just cause for murdering
Waste life... Die bastard die bastard burn
Rape gives strength to weakness
He says...
I want you for your body
Lies prone... cold and alone
I want you for your body
I want you for your body
I want you for your body
Body... Body... Body... Body... Body
Now feel this come down on you
Here now alone with all who love her
You fucking pig... now you die
I want to see you fucking dead I want you for your body
I want you for your body
I want you for your body
