I am the coming of a new age  
past your shit by far  
I was a puzzle in your sick life,  
but will never be a piece anymore.  
because I worked through your fucking bullshit  
and I worked through your fucking lies  
now I'm working on the edge

with a thousand times the stress,  
so I can damn you down to size.

I worked in your fucking warehouse  
I worked in your fucking dream  
I worked on the edge of the product community

and found that nothing's what it seemed  
I fucking hate you...

dey worked in the corner of the piss yard  
bored and plagued by pain,  
dey got a taste of the corporate community,  
and never went back again.

I worked for you fucking bastards  
I worked for your fucking lies  
I went and pissed away too may fucking opportunities  
to try and make you fuckers feel right  
and I fucking hate you...

I am the coming of a new age  
stained we still stand tall  
I am the coming of a new age  
and I will never fall  
I bear the questions of a new time  
seen but never heard  
I've seen the comings of a new time, get ready...  
coz here it comes.

pushing your incompetence,  
and racial views aside  
and never now,  
until death again, is there anywhere to... hide

it starts here my friends,  
my brothers and sisters,  
the courage to show what is brave, and not to be  
weakened  
to stand it through, by any length

to look into the eyes,  
and have the strength of men who say "fuck you"  
I won't do what you tell me...  
I don't care who you are...  
I'll never stop believing...  
and I'll never be the one who takes the heat in the  
name

of the remorse that isn't pushed into a hole  
waiting now, and packing down  
into the open spaces we must go and not be frightened  
as children we came,  
as children we go,  
so never look behind you, never look behind... "fuck  
you"  
it isn't a decision.  
it's a sign of greater things.  
and a loss will never matter...
