

Departure, The "Arms Around Me"

Visit "[Arms Around Me](#)" on MotoLyrics.com

Let's go to the town
It's getting late
But I find it hard to resist
Oh take me to the town
I'll hold you close

There's something inside of me
That doesn't want to die tonight
And if I start to lose control
Put on a hard face
Just turn, walk out the door
Don't let me lose control
Just tell me lies
This is confusion
When all you do is stand and smile

So put your arms around me
Let's go out tonight
If this is not temptation
You going to kill my pride

Put your arms around me
Let's go out tonight
If this is not temptation
You're going to kill my pride
You're going to kill my pride

I tried to hold your stare a little longer
I feel stuck inbetween
The look that's in your eyes
So much to say
But you don't talk
You don't have the time
I turn this way
Turn that way

Am I that paranoid?
It's like talking through glass
Why can't you see?
There's something inside of me
That doesn't want to die tonight

So put your arms around me
Let's go out tonight
If this is not temptation
You're going to kill my pride

Put your arms around me
Let's go out tonight
If this is not temptation
You're going to kill my pride

Is this temptation or just a lie? (x4)

There's something inside of me
That doesn't want to die tonight
There's something inside of me
That doesn't want to die

So put your arms around me
Let's go out tonight
If this is not temptation
You're going to kill my pride

Put your arms around me
Let's go out tonight
If this is not temptation
You're going to kill my pride.
