How many days in the weekend?  
We should follow this one  
How many days in the weekend?  
We should follow this one  
How many times do her eyes have to meet yours?  
How many days in the weekend?  
We should follow this one

Think of the lines you could've said  
Pick me up, oh they're just dirty words  
Think of the thoughts running around her head

She'd be game if you would just play  
She'd be game if you would just play  
She'd be game if you would just play  
Oh, if you would just play

How many days in the weekend?  
Take me out of this one  
How many days in the weekend?  
Take me out of this one  
You blew all your chances but so what?  
How many days in the weekend?  
Take me out of this one

If life is a teacher then I'll be a preacher's son  
Well it's a steady job  
At least it's a steady job  
Look what you've got yourself into  
I said look what you've got yourself into

Oh they're just dirty words. (x 8)
