

Departure, The "Don't Come Any Closer"

If this is the set then I'll take it all down
Don't come any closer if you have to
Look I feel without the sound
You have to watch the words as they appear

And I'll be acting out tomorrow
You'll be killing time by watching me
You're just killing time

And this is for show
I can see in your eyes
All of my ideals flash to nothing
Like a scream with nothing solved
No photograph to fill this hole of it

And I'll be acting out tomorrow
You'll be killing time by watching me
You're just killing time
And Im so sick and tired
Of this "I don't need to feel lonely" and
I'm just killing time

This is the way that you're making me feel (+4)

And I'll be acting out tomorrow
You'll be killing time by watching me
You're just killing time
And Im so sick and tired
Of this "I don't need to feel lonely" and
I'm just killing time.
