I'm out on the open sea  
The wind is embracing me  
I'm watching the setting sun

Far far away from you  
There's not much that I can do  
You know what's the only way for me

Into the depths I fall  
Into the unknown darkness I go

Down, down, down  
Down, down, down  
Falling into the abyss

A morning of no recall  
No memory, no feel at all  
The sun is blinding my eyes

The pain I feel in my head  
I think I go back to bed  
Or should I have just one more

Into the depths I fall  
Into the unknown darkness I go

Down, down, down  
Down, down, down  
Falling into the abyss

Down, down, down  
Down, down, down  
Down, down, down  
Down, down, down  
Falling into the abyss
