When clouds are covering the sky
I can't help thinking what's behind
In a fading evening
I can feel strange thoughts in my mind

What if we aren't alone here
There's a clone of everyone somewhere
That duplicates all that we do
Not like me, not like you but our other ego

There ain't no wars or crises
Only joy and compromises
Time has stood still

Why don't you take me there?
Wanna feel some infinity
Why don't we just dare?
'Coz after all remains

Why don't you take me there?
Wanna feel some infinity
Why don't we just dare?
'Coz after all remains eternity

A landscape with no trees
And mist arising from the distance
An illusion just for me
Or a proper reward and a chance

There ain't no wars or crises
Only joy and compromises
Time has stood still

Why don't you take me there?
Wanna feel some infinity
Why don't we just dare?
'Coz after all remains

Why don't you take me there?
Wanna feel some infinity
Why don't we just dare?
'Coz after all remains eternity

Why don't you take me there?
Wanna feel some infinity
Why don't we just dare?
'Coz after all remains

Why don't you take me there?
Wanna feel some infinity
Why don't we just dare?
'Coz after all remains eternity

Eternity, eternity
'Coz after all, after all remains eternity
It's always eternity
