„Omnia sol temperat, purus et subtilis.  
Novo mundo reserat faciem Aprilis."

From the dark I watch you go away  
I will never see you again

Every passing day prolongs my pain  
I am slowly fading Into the void

Voice without a sound  
A sound that no one cares to hear  
A second drowned  
You live, your life just passed away

Moment in a lifetime

Lifetime in a moment

Seize the day don't let it slip away  
Cherish every moment, before it's gone

Voice without a sound,  
A sound that no one cares to hear  
A second drowned  
You live, your life just passed away

Moment in a lifetime  
Lifetime in a moment
