Scream at nights
But you won't be heard
It's deep inside
The pain within your head

You cry for help
The torture won't let you go
Your mind is aching
And you can't go on

Reaching for window
Your execution
Is the only solution

Night screamer
Night screamer

Afraid at nights
There's nothing to be afraid of
Your nightmares
Won't leave you alone

Try and think hard
What's wrong in your life
Try and stay cool
You'll find peace of mind

Reaching for window
Your execution
Is the only solution

Night screamer
Night screamer
Night screamer
Night screamer

Night screamer
Night screamer
Night screamer
Night screamer
