Bring it back. Bring it back. Bring it back again  
I cruise around with the radio on  
Make me feel alright  
Make me feel alright  
Wide open highway and the sun going down  
Make me feel alright  
Make me feel alright  
I grab my guitar and pick out a song  
You wear that pretty dress we never could go wrong  
We had no money but never seem to care  
Our love took us everywhere

Bring it back again  
Bring it back. Bring it back. Bring it back again  
Bring it back again

I cruise around in a rag top ride  
Make me feel alright  
Make me feel alright  
But now I got no one by my side  
Make me feel alright  
Make me feel alright  
Though I never share my memories  
No one by my side to comfort me  
I need your little hand to hold in mine  
Got to hold you all the time

Bring it back again  
Bring it back. Bring it back. Bring it back again  
Bring it back again

Is it any wonder, why I love you so  
Oh you were my first love  
When your arms met mine  
You just stole my heart for all time

Bring it back again  
Bring it back. Bring it back. Bring it back again  
Bring it back again

I cruise around with the radio on

Make me feel alright  
Make me feel alright  
Wide open highway with the sun going down  
Make me feel alright  
Make me feel alright  
Though I know I'm the only one to blame  
I've had enough of this sorrow and pain  
I know that deep down you still feel the same

Bring me your love back again  
Bring it back again  
Bring it back. Bring it back. Bring it back again  
Bring it back again  
Come on bring it back again  
Bring it back. Bring it back. Bring it back again  
Bring it back again  
Come on bring it back again  
Bring it back again
