Well the news of the saucer been flying around
Out on a walk see it over the ground
First thing I see when I saw it land
A cat jumped out and he started a band

Flying saucer rock and roll
Flying saucer rock and roll
I couldn't understand a thing they said
But the crazy beat just knocked me dead

Well the little green men they were real hepcats
Rockin' and rollin' to the crazy flats
Brought out a sax and started to blow
Brought out a drums and started to roll

Flying saucer rock and roll
Flying saucer rock and roll
I couldn't understand a thing they said
It was the crazy beat just knocked me dead

Well I come outta my hidin' and started to rock
The little green men taught me how to do the bop
They were three foot high we hit a few bars

Flying saucer rock and roll
Flying saucer rock and roll
I couldn't understand a thing they said
It was the crazy beat just knocked me dead
