Strawbs - Forever

Blue skies above me
I've someone to love me
To take good care of me
Forever.

Through all that time can send
We'll make it to the end
Just you and me my friend
Forever.

Oh weeping willow
Please share my pillow
So that the clouds will billow
Forever.

And I don't have to bend
We'll make it to the end
Just you and me my friend
Forever.

The gypsy woman
Who sold me her heather
She told me its good luck
Would last me
Forever.

We've got our lives to spend
We'll make it to the end
Just you and me my friend
Forever.

Through all that time can send
We'll make it to the end
Just you and me my friend
Forever.
