Strawbs - Here It Comes

I will give you silver
I will give you gold
I will give you treasures
To keep when you are old.

Here it comes
Here it comes
Here it comes
Here it comes.

The moon will be your chariot
The heavens open wide
I will be your comfort
As through the stars you glide.

Here it comes (love, love, love)
Here it comes (love, love, love)
Here it comes (love, love, love)
Here it comes (love, love, love)
Here it comes (love, love, love)
Here it comes (love, love, love)
Here it comes (love, love, love)
Here it comes.

Come and lay beside me
We'll light a single flame
Safe and warm within you
My thigh (?) will bear your name.

Here it comes (love, love, love)
Here it comes (love, love, love)
Here it comes (love, love, love)
Here it comes (love, love, love)
Here it comes (love, love, love)
Here it comes (love, love, love)
Here it comes (love, love, love)
Here it comes.
