Verse 1:

When it all comes down
Comes crashing down
When hope is gone
Without a sound

When tears run dry
But your heart still cries
Thoughts of suicide comes back to life

Chorus:

I'll carry you ba----ck home
It won't be long
I'm taking you ba---ck home
Leave behind your wounds

Verse 2:

When Hell's embrace, lost hold of me
Oh I could see, (echo)
So openly

How you were there
You were there for me
Now flip the scene
That's where we'll be

Bridge:

Oh when I can fly
I'll take you for a ride
Love it will change your life

Let----- me take you by the hand
And I will help you stand
Above your ruined plans
