Now can you clap for the killers?
Give it up for them gangsters
One time for the killers
Double up for them gangsters

Well I
Wrote this for criminals
But all of y'all should listen at me
Now if you ever catch me snitchin
Just haul off and slap me
They on the other team
Let's rumble
Is my thoughts exactly
They work for gangsters
And they wacked Fred Hampton Jr.'s
Pappy
Ay playboy
Pop em with a pistol and get executed
Ay mama
Murder em with missiles and you get saluted
Go head and
Gank em for a grand
It's DNA computed
But bankers bathe in the Bahamas
Off of billions looted

Now can you clap?
Now can you clap?
Now can you clap for them killers?
Give it up for them gangsters
One time for the killers
Double up for them gangsters

Well I
Wrote this for criminals
But they the ones who wrote the laws
They ain't on TV getting arrested a up in their draws
They stick their hands up politicians
Make em move their jaws
And they be starving folks for bread
Until their breath pause

Ay take a memo Money Penny
Say the deed is done
And you can bcc DC
And say our leaders won
But first we fax the photograph of the
Opponent's son
Adjust the image
Cuz it's hard to see the gag and gun

Now can you clap?
Now can you clap?
Now can you clap?
Now can you clap?

Now can you clap for them killers?
Give it up for them gangsters
One time for the killers
Double up for them gangsters

Well I
Wrote this for gangsters
While I sprinted through your backyard
Not for them Coppola criminals
They just act hard
Tony Montana had a stylist and a SAG
Card
When he reloaded slaves forgot they had
Back scars

Ay
M-M-Mister DeNiro what kind of gun is
That?
Can you look more like a menace?
Take two
Now run it back
Ay s-s-so what Scorsese
Got all them money stacks
Long as his lens never looks at the real maniacs

Clap for them killers
Give it up for them gangsters
One time for the killers
Double up for them gangsters
