Hollywood, whoa yeah yeah yeah
Such a strange girl, you're sure looking good
Turn on your radio and throw out your gum
I don't know where you're goin'
Or where you're comin' from

Hollywood, what's your real name girl
How'd you get the car, those diamonds and pearls
Magazine baby, why you lookin' at me
I don't believe I wanna be a part of you mystery
Hollywood, Hollywood, Hollywood, Hollywood

Hollywood, is it true what they say
Eat 'em up, spit 'em out
And then you just throw them away
Ooh Hollywood, you love when you make the rules
Step right up ladies and gentlemen
Here comes the stumbling fool
Hollywood, Hollywood, Hollywood, Hollywood
Hollywood, Hollywood, Hollywood, Hollywood
