

Street Dogs "Mystery Box"

Visit "[Mystery Box](#)" on MotoLyrics.com

There you go just sitting on your ass
Not realizing that your future's past
You make me sick with your computer fix
It's time to put down the toys and forget the tricks

And you you're standing still
Content to live your life by computer's fill
Your passing up your chance to see world
Get off your ass get off that mystery box
Live your life my son not on the fool
Live your life my friend don't give into AOL
They don't care if you really have a life

Life is not all Emails and this crap
?
There's more to see into my little world
Get out grab it by the collar don't be a fool

And you you're standing still
Content to live your life by computer's fill
You're passing up your chance to see world
Get off your ass get off that mystery box
Live your life my son not on the fool
Give yourself a chance don't give into AOL
They don't care if you really have a life
