[Chorus] "Power reigns over us all..." Flooded with their pains as nowadays we're all trapped in a storm as power reigns "Power reigns over us all..." Flooded with their pains as nowadays we're all trapped in a storm as power reigns [Verse 1: Dialectrix with Joe New] It's clear antagonism when the US have suspicions Killing adversaries with imaginary ammunition If you understand and listen you realise there's turmoil on Iraqi soil - for its oil aquisition That's what they want, at any risk can rid their obstacles Bomb a nation's leader but they miss and hit its hospitals An ex coke addict puts artillery in advance And its militans kill the innocent and place the rest in prison camps Then those captives cop abuse and bastardisation on the indifference and the religion of where the afterlife takes us With the bringing of casulties on the brink of calamity People vote on Big Brother and they think it's reality Don't give thought - who's expected to lose? Think about the vote for the next 4 years what effects on the news Cos that's real, we're about as real as what you find on television So think about that before you go and tell opinons [Chorus] [Verse 2: Joe New and Dialectrix] Yeah now I know what has happened, I think how this comes about Brains on bad power trips, raining magic mushroom clouds See the damage, delete the picture, cut it out, numb it out Buy number 1, wars numbered, what's the number now? Funny how reporters reported it and maybe you never thought of it But the collective consensus of this country supported it It's unfortunate, no one gives a FUCK what this country does - when it lowers your mortgages To lower the price of your home has made this nation just a protege' Unconscious state of scenes that crime committed And then copies it to show its aid, go invade A liberation of a nation just a hope parade Realistically this country's never needed its allies But to add another name to the blame goes down nice The situation is we are America downsized Adding our names to their blames don't sound right [Chorus] [Sample] "Dying over money and" "Dying over money and Dying over money and relying on religion Relying

on religion... relying on religion" --> Dead Prez {Police State}
