

And You Will Know Us By The Trail Of Dead "Inland Sea"

Stay calm, stay calm
Relax your limbs gently float to earth
Hear the laughing of the Inland Sea
And know your mind is where you're meant to be

Wake up, wake up
Remind yourself exactly who you were
Is the price you've paid to live this little dream
Worth the pain you've been suffering?
The only way out is to go up

Take up your arms
Prepare yourself to face the whole world
Don't ask your friends for faith or company
They're none of them who they pretend to be
