Now that our ties are served  
Let us not wonder whether  
As we say goodbye  
We are ready to take the dive

Grieve, but not grieve together  
Let it drag us down, let it fade  
Let it dive, let it die, let it fade out of sight  
Mourn with nothing to say

Lost as those sweet warm other days  
Gone are those times forever

Let it dive, let it die, let it fade out of sight  
Let it dive, let it die, let it fade  
Let it drag us down, let it come between you and I  
Where we born to despair

There will always be something there  
Deeds done but not forgiven?  
Let it dive, let it die  
As long as one of us goes on living

Let it fade out of sight  
What's done is done, no reason to apologize  
Let it drag us down, let it come between you and I  
Let it dive, let it die, let it fade
