Don't even think in her  
They told me  
She's with that guy over there

You're new in town so I must warn you he's  
The bad of the bads,  
he's a streetwise!

They're from the football team  
They don't do drugs  
But I think one sells speed

I know you probably want to talk to her  
But if you try  
She'll deny and he will stop your life  
but you wanna run away with her  
and you wanna kiss her on her neck  
she thinks hes the one for her  
but you know shes not right so youll fight for your girl  
Now there's nothing you can say  
So that  
He don't break your face and then between your legs

ive alredy told you  
hes the bad of the bads  
hes a streetwise
