You know you look swell, you look swell.  
What's going on?  
You know you look swell, you look swell.  
What's going on?  
You know you look swell.  
You know you look swell.  
You look it, you look it, you look it. Whoo!

You know the self self self is a burning house.  
You know the self self self is a burning house.  
You know the self.  
You know the self.  
So get out, so get out, go get out. Hey!

You look swell.  
You look swell...  
You burn it! You burn it!  
You know the self self self is a burning house.  
You know the self self self is a burning house.  
You know the self.  
You know the self.  
So get out, so get out, while you still can.
