[Sir Menelik]

The plane managed to land the skeleton at the controls

A place called the Twilight Zone

Are extraterrestrials able to accomplish this?

I will explain but you'd become more puzzled at the possibilities

Earth ending trilogies, wacky stuff

Like gas passing dinosaurs

While I stroll in circles blindfolded

Gave a lady some wrinkle cream out of rat poop

You might just laugh so hard your skull cracks

Brain spills thick blood shooting out like a champagne cork

Females so horny and mean, sucking scales off of live rattlesnakes

My boy gave his girl money for groceries, she got a new hairdo

Women like this could even make the devil commit
suicide

hung from a tree on Johannesburg with no parachute

Big-Bigfoot captured by UFO's

Haloos were found, at the landing sites, vanishing

Vanishing victims, kept alive on metal examining tables

Ex-Experts baffled they could survive the caustic
exposure

to laser scalpels, green berets

Flowing cold heads in mechanical wombs

Radioactive constant temperature circular appendages

Cripples start shaking sending distress signals

We're not alone in the Twilight Zone

Back in spiral, I roast humans like a gyro

New York, Atlanta, Africa to Cairo

Diplomat King Presidential offspring

Two miles from Westinghouse, with lights down South

Government chemical voodoo man miracle

Super disease your brain is more hysterical

My urine see paralyze your ability with space codes

electrodes you're ready for a pap smear

Wax in your inner ear, doodoo in your outer ear

Two cows a zebra will jump through your atmosphere

Giraffe-Funk will raise beamin through your trunk

Steam of Legion, to burn up in your anal region

Power contracting with bombs in his rectum factor

Utilized phonic like water in your Panasonic

Trip or slip or fall

Right into the earth pit, gamma ray toilet

Microbes on your earth shit

Dr. Ludicrous, I turn into a octopus

Grab eight species, isolate like an incubus

Convert with probes, green shit is on your earlobes

Attack what stomach with juice they call gastric

Alien bugs with sickle cell, get they ass kicked

Dermatologist examine more black cysts

Radiation butter pouring down your sinus, it's Dr.
Octagon

Utilize to abuse minds

Slice head halves, let's probe the subconscious lobe

Mathematical parabola, ACT test and just ex-plorating

the creative arctic regions, or isolating cockpit

A regular pitstop monitoring with enough fuel to fly a
small dirigible

To a place an oasis in a nebula, Earth

Universal charting unseen atmosphere

Requesting assistance, I speed through waves like a
Concorde SST

Then open aperture

The shape of Octagon selects forward morphing it's
the vertical

Frankenstein

Prototype of like Kervorkian

Mind pedestrian controls

Spend elevation gobble the ignorant supersonic cruise

Hidin to think, focus psychosis with Von Blowford

Black lotus releases when life is flailing external

terminal update, thermal conducted power source
supplied

Man on the moon pumps amps, or souped up cable
boxes

getting up impossible

The speaker needs another dose, concoct

Concoct the scenario view, in a position of a coroner

describing current events bent on human
dismemberment

To a point of no resemblance

We're not alone in the Twilight Zone

Like Enoch, I wear my cape, you can't destroy
my impeccable caliber that makes your vision blur

I drop particle X when having Rhythm sex

Voodoo arrangers with the kids Power Rangers

Make me see other men, gorillas masterbating with
human strangers

Legally through court, you're stung by a genital wart

Chlamydia, through the city-a

Los Angeles Texas has a serpent that's urgent
for the mass appeal biomedical test your rectum
squeezing in banana peels

Outwards backwards towards Boston

It's costing androids leaving humans with hemerrhoids

Thinking more of what they can't explore, like
the cartoon Donald Duck is giving fellatio on the floor
with Reed Richards, looking at The Thing's naked
pictures

Taking Ex-Lax to relax with the needle and thread
sewing up all the other buttcracks

In the industry there's no one who can mess with
Dr. Octagon, now serving coleslaw and pink pickles

"They waved among the trees at breakneck speed"

[Kool Keith] Keep it simple

scratched "They waved among the trees at
breakneck speed... their

bikes"

[Kool Keith] Keep it simple

"Detached his bike, and leaped to safety

Just before they collided with a tree
