Verse 1

First patient pull out the skull remove the cancer
Breakin' his back chisel necks for the answer
Supersonic bionic robot voodoo power
Equator ex my chance to flex skills on Ampex
With power meters and heaters gauge anti freeze
Octagon oxygen aluminum intoxicants
More ways to blow blood cells in your face
React with four bombs and six fire missiles
Armed with seven rounds of space doo-doo pistols
You may not believe, livin' on the Earth planet
My skin is green and silver, warhead lookin' mean
Astronauts get played, tough like the ukelele
As I move in rockets, overriding, levels
Nothing's aware, same data, same system

In Capsule D my program is ability

For a reaction and response to a no-one

Made myself clear, reappeared to you visual

Disappear again, zapped like a android

Face the fact, I fly on planets every day

My nucleus friend, prepare, I return again

My 7XL is not yet invented

Upside down through polygons fightin' pentagons

Five colours: yellow, black and red and green...purple
