All we've lost is so much more
[Incomprehensible]

I can't believe all the things that I see
So many people strung out on vanity
A lust for something more
So much more than we're given
Now it's too late we made our mistakes
Can't we change the way we're living?

I don't know why, we try and try
To be something more than we are not
No matter how we lie
We'll never mask what's inside

I don't know why, we try and try
To be something more than we are not
No matter how we lie
We'll never mask what's inside

Will you be left standing?
Can you carry on this charade?
Will you be left standing?
Can you carry on this charade?

All we've lost
It's all we've lost
All we've lost
It's all we've lost
