surrender to your senses  
indulge in your desires  
the need to have it all is the flame that feeds your fire  
determined to obtain  
programmed to recieve  
yourh eart has hardened  
your soul has been deceived  
searching for the things that will make your life  
complete  
you never learned from the past  
it is you they will defeat  
for ths pursuit you will suffer the cost  
suffer the loss  
is the victory worth the loss?  
or will you let yourself destroy you for the chance to  
have it all?  
or will you firmly stand and from yourself demand the  
joy that comes from within?  
i know you're scared  
i know the pain inside  
i know you're lonely  
i know the tears you've cried  
determined to obtain  
programmed to receive  
your heart has become hardened  
your soul has become deceived  
searching for the things that will make your life  
complete
