A street in paris in the rain
I shoot in black and white a hundred frames
I watch your make-up
Begin to run

You show a strange unease
But you're my subject and it's me you please
I feel your spirit freeze
As the shutter clicks down

We are in heaven now
As if we broke the bonds of earth somehow
Here for eternity
A piece of you is part of me

I know you'll never leave
Cos like a primitive I do believe
I have you spirit seized
As the shutter clicks down

We are in heaven now
As if we broke the bonds of earth somehow
Here for eternity
A piece of you is part of me

We are in heaven now
As if we broke the bonds of earth somehow
You're under my control
Because I've captured your immortal soul
Don't look for signs
Your spirit shines
Here till the end of our days

And now in paris in the rain
I put the camera in it's case again
And in those hundred frames
Another moth to the candle flame

We are in heaven now
As if we broke the bonds of earth somehow
Here for eternity

A piece of you is part of me
