I wanna jump in and get too deep
I wanna stay up and watch you sleep

And if I can go where no one's been
Oh, you know, I'm leaving
I want to give up and get things wrong
I want to be me and turn you on

'Cos if I can go where no one's gone
If you have to, just take it
If you feel it then just say it

Is it something you believe in?
Are you faking to hold on
Just to be [unverified] free
I know, I wanna believe and still belong
I just wanna know what's going on

'Cos if I can go where no one's gone
[Unverified] I'm leaving
I wanna give up and get things wrong
I wanna be me and turn you on

'Cos if I can go where no one's gone
If you have to, just take it if you feel it
Then just say it

Is it something you believe in?
Are you faking to hold on?
If you want to then just take it
If you need me to hold on just to be free
