The place where I'll stay, is the mess that I'm in
I wanna give up when you give in
So what's eating you? Am I getting it wrong?
I wanna be me and leave it all

You think we're so good, I don't ever care
It's a nice thing, just a nice thing
I'm trying to change but the weakness is me
Letting your every thought bury me

You say you learned how to love
Well, I learned to hold on
How does it feel?
Now we're letting go

You think we're so good, I don't ever care
It's a nice thing, just a nice thing
You think we're so good, I don't ever care
It's a nice thing, just a nice thing

And I feel for you, and I feel
The place where I'll stay is the mess that I'm in
I wanna give up when you give in

And you think we're so good and I don't even care
It's a nice thing, just a nice thing
You think we're so good and I don't even care
It's a nice thing, just a nice thing

And I feel for you, and I feel
The place where I'll stay is the mess that I'm in
I wanna give up when you give in
