

Stretch Princess "Over and Over"

Visit "[Over and Over](#)" on MotoLyrics.com

I won't give you up or let you down
And I won't be gone when you come around
I won't ask you why when you can't explain
And I'll never leave you like a sunny day

Oh, I might make you furious with me
Laugh when you're serious
But I'll catch all the trouble you throw at me
Then I want to love you over again

I won't try to run if you're feeling a little tired
And I'll carry you home when you get too high
Oh, I won't be careless with your heart or mine
You won't be alone it'll be alright

And I might make you furious with me
Laugh when you're serious
But I'll catch all the trouble you throw at me
Then I want to love you over again
I want to love you over and over again

And if you can't find me
Check the universe I'm hiding

I want to love you over and over again
I want to tell you over and over again
I want to be with you over and over again
