"I Have Peace"

Visit "[I Have Peace](#)" on MotoLyrics.com

I got peace on my mind
I have peace on my mind (oh oh woh)
I got peace on my mind
Like it's all over now

Peace (what), I gotta have peace (yeah)
I gotta unleash from the belly of the beast (uh)
I gotta release mad world, the fat beast (that's right)
'Cause not many people know the meaning of peace,
word (ha)
If a man says he's packing a piece, you better run (uh)
'Cause in the '96 a piece represents a gun (ha)
But I represent the peace that means peace of mind
Free of madness, stress, just feeling good time (ooh
wooh)
I want a piece of the pie just like the next man
Chilling hard, big York with the Lexan (ha)
Cooling out by the pool, honeys acting fool (word)
Enough to make a brother drool, yo, but that's cool (ha)
I want a piece of the dream to make real cream
Be a star, Hollywood, with the dream team
You know how I mean, this goal, I gotta reach this
(what)
And that's what the meaning of peace is

I got peace on my mind (got peace on my mind)
I have peace on my mind
I got peace on my mind
Like it's all over now

Peace (uh), it might mean "peace, see ya later"
But the meaning of peace can also be much greater
(what)
I'm talking 'bout the peace that never comes to the
Middle East
Where the wars never seems to cease
(Peace) on Earth, good will to all men (yeah)
Words often said but rarely ever meant (uh)
World War III, the earth shatters in pieces (boom)
Is that what the meaning of peace is

I got peace on my mind (I got peace on my mind)
I have peace on my mind
I got peace on my mind
I have peace (ha, rock on)
Like it's all over now
Like it's all over now
And like it's all over now
It's all over now

Right about now we're gonna get busy
We're gonna take it home

Peace (I have peace on my mind)
(I have peace) on my mind (on my mind)
(I have peace) peace (on my mind)
(I have peace on my mind)
On my mind (I have peace)
I got peace on my mind (on my mind)
(I have peace) I have peace (on my mind) on my mind
(I have peace) I got peace (on my mind) on my mind
(I have peace) I have peace (on my mind)
Like it's all over now
Like it's all over now
Like it's all over now
Like it's all over now
